

NO.

PLEASE do not create a new law that will be less effective than an already existing law. i DO NOT want phone calls from telemarketers at my house... REGARDLESS if i have done business with them in the past or not. I DO NOT WANT CALLED.

I live in INDIANA, before OUR "no call list" went into effect, i was receiveing at LEAST 10 calls per week, I currently revceive 0 (Zero) phone calls from telemarketers. THIS IS SUCCESS. if you are going to create a NEW law, make it AS GOOD AS OURS.

you should make a "NO CONTACT LIST" for EMAIL address as well !!!!
